DETAILED ACTION

1. The reply filed on 12/8/2005 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

Newly amended claims shift the invention from a system and method for allowing a user to provide feedback, collecting the feedback data, and using a switch to transmit new programs based on the feedback to, monitoring which data is accessed by a user and updating user profiles, which introduces an election by original presentation. Since all of the claims are directed to the new subject matter, there are no claims available for prosecution.

. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Election/Restrictions

2. Newly submitted claims 116-124 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Independent claims 116-124 are directed to monitoring which data is accessed by a user and updating user profiles.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 116-124 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
